October 31, 2002

Sir:

This is in response to the Office Action dated October 1, 2002, wherein the Office Action has required an election between the following groups: I) Claims 1-9 drawn to a dissipative layer, classified in class 162, subclass 125; and II) Claims 10-30 drawn to a packaging material, classified in class 428, subclass 212.

Applicant provisionally elects Group I, Claims 1-9, with traverse. Applicant respectfully requests that the restriction requirement be reconsidered because the Examiner has not shown that a serious burden would be required to examine all the claims. M.P.E.P. § 803 provides:

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions. (Emphasis added.)

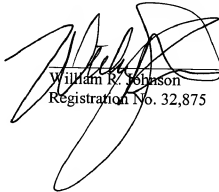

**ATTORNEY DOCKET NO. 11114.0001U1**  
**Application Serial No.: 09/850,368**

Here, irrespective of whether the groups requested are independent and distinct inventions, the requirement should be withdrawn since the Patent Office has not shown that it would be a serious burden to search and examine all of the groups together. Consequently, reconsideration and modification or withdrawal of the restriction requirement is requested.

No fee is believed due; however, the Commissioner is hereby authorized to charge any additional fees which may be required, or credit any overpayment to Deposit Account No. 14-0629.

Should the Examiner have any questions regarding this response, or the application in general, she is invited to telephone the undersigned at her earliest convenience.

Respectfully submitted,

William K. Johnson
